

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of the Claims

Claims 1-7 (Cancelled).

8. (Currently Amended) RF unit comprising a tuner, a demodulator and a mixer, wherein the tuner or the tuner and the mixer are arranged on a first substrate and the mixer and the demodulator or the demodulator are arranged on a second substrate, wherein the RF unit further comprises a housing having a single frame at least partly accommodating the first and/or second substrates, wherein the first and second substrates are arranged in parallel on respective different levels, ~~and that wherein~~ means are provided to maintain a predetermined distance between the first and the second substrate, wherein connectors are provided for electrically connecting the first and the second substrates, wherein at least one of the connectors has one or more contacts extending through the first and the second substrate, said contacts being adapted for mounting and connecting the RF unit to a circuit board, and wherein the contacts of the connector may also be adapted for electrically connecting the first and second substrate.

9. (Cancelled)

10. (Currently Amended) RF unit according to claim 9~~8~~, wherein the connectors are provided along at least one side of the respective first and/or second substrate in an essentially linear arrangement.

11. (Previously Presented) RF unit according to claim 8, wherein the means maintaining a predetermined distance between the first and the second substrate include the connectors.

12. (Previously Presented) RF unit according to claim 8, wherein the housing is shielding electromagnetic radiation.

13. (Currently Amended) RF unit according to claim 8, wherein the first and the second substrates are separated by an intermediate shielding.
